

DSGN 402 Capstone II

This course emphasizes the production of the project researched and proposed in DSGN 401 and allows the student to demonstrate the practical skills and academic studies accumulated during the degree program. Emphasis is on meeting deadlines and on eliminating challenges determined by the project committee. Solutions to obstacles are suggested accordingly.

(Pre-requisites: DSGN 401)

Course Learning Outcomes:

By the end of the course, students will be able to:

1. use different multimedia design production techniques during the project development.
2. follow and apply professional code of ethics during multimedia design project development.
3. develop project concept, design, and produce the project components according to the required standards.
4. utilize design software to design and produce project components.
5. Follow the rules of delivering structured, interactive, creative, and persuasive presentations.
6. Present creative work confidently using appropriate multimedia tools and techniques.
7. lead the capstone project development from initial ideas to final production phase in a professional manner.

Textbook & Course Materials:

- N/A
