

### DSGN 405 Multimedia Design Internship

This course is a supervised professional experience in a professional workplace that provides hands on experience in multimedia and design, in either the private or public sector. At the conclusion of the internship each student will present a report summarizing the internship experience. Potentially, this experience may lead to generate ideas for capstone course.

*(Pre-requisites: Min of 90 credits and a CGPA of 2.00)*

### **Course Learning Outcomes:**

By the end of the course, students will be able to:

1. understand multimedia ethical codes in real-life situations.
2. improve specific skills, analyze design problems, and concept development.
3. use design industry software to implement the required design & production material.
4. present the accomplished work in a creative manner by using multimedia tools.
5. work on personal development: values, confidence, assertiveness, and decision-making.
6. Work successfully independently and as part of a group.
7. learn about workplace environment and explore the different multimedia design positions ranking.
